REBUILT PARTS AND COMPONENTS

SAVE TIME. SAVE MONEY. REBUILD.

REBUILD WORN-OUT PARTS AND COMPONENTS TO PERFORM LIKE NEW!

The experts at Crane Pro Parts™ take old, worn out parts and components from any brand of crane and rebuild them to perform like new – **at a fraction of the cost.**

The specialized processes of the Crane Pro Parts Rebuild Center have been developed to maintain OEM integrity of OE specifications and performance for all rebuilt parts. Our rebuild processes use higher quality materials and applied industry expertise to deliver superior results.

A customer had a breakdown on their only production hoist. A new drum had a 14 to 16 week lead-time, but Crane Pro Parts was able to rebuild the drum and get it back to us in 1 week. That saved our customer over \$30,000 and 15 weeks of downtime.

– **Scott Lane, Service Manager, Evansville, IN**

REBUILT PARTS AND COMPONENTS FOR ALL CRANE BRANDS

MOTOR REBUILDS

- Industry's finest electrical crane motor rebuilds and rewinds
- Performs like new at a fraction of the cost
- Maintains OEM integrity of OE specs and performance

HOIST & TROLLEY REBUILDS

- New life for tired equipment
- Refurbish for a fraction of the cost of buying new equipment
- Any make or model

DRUM/DISC BRAKES & ASSEMBLIES

- Inventory of SBE brakes and brake shoes
- Reline any brand, size, or style brake shoe
- Clean, test, repair or replace coil
- Complete rebuilt brake assemblies

GEARBOX & WHEEL ASSEMBLY REPAIRS

- Test, inspect and rebuild to OEM spec using genuine parts
- All new bearings and seals
- NDT test all gears before shipping

DRUM REPAIRS

- NDT inspection and weld repairs
- Replace worn or damaged shaft
- Re-groove drum barrel
- Sub-arc welding and regrooving

OTHER PARTS AND COMPONENTS

- Upper and lower block assemblies
- Below the hook devices
- Radio controls and pendants
- Electrical controls, static stepless modules

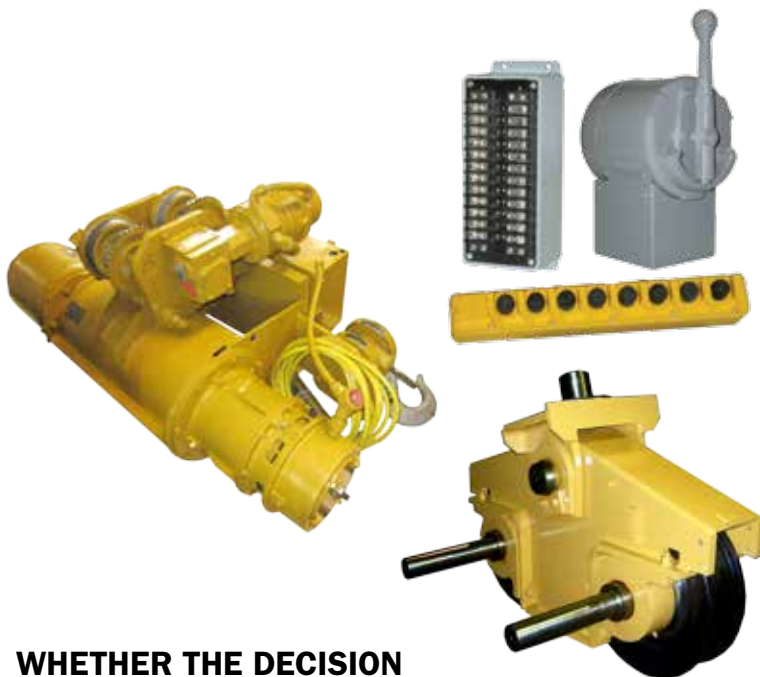

WHY CHOOSE REBUILT PARTS AND COMPONENTS?

REPAIR	BUY NEW	REBUILD
Replace only the worn or damaged parts	Complete new replacement	Replace ALL existing parts per predetermined checklist
90-day warranty on replacement parts only	Longer lead time than repair or rebuild	Follow proprietary standard operating procedures
	Full 1-year warranty	Sandblast and paint housing
		Rebuild to like-new condition
		Full 1-year warranty
		20-75% cost savings and shorter lead times than new

Ecological Alternative

Choosing to rebuild reduces environmental impact by remanufacturing and recycling whenever possible.

WHETHER THE DECISION IS TO REPAIR, REBUILD OR BUY NEW, CRANE PRO PARTS IS THE CHOICE.

COST SAVINGS OPPORTUNITIES

Rebuild vs. New

COMPONENT	SAVINGS UP TO*
P&H® motors	50% **
Hoists, Zip-Lifts	45%
Brake pots, assemblies	50% **
Drums	40%
Magnetorque® eddy brakes	50% **
Bottom blocks	20%
Wheel assemblies	20%
SBE brakes	34% **
SBE relined brake shoes w/ core	75% **
SBE relined brake shoes w/o core	50%
Gear case assemblies	20%
Electrical controls	20%

Brake Rectifiers, Control Boards, Control Modules Drum Masters, Limit Switches, Rectifier Assemblies, Rectifier Panels, SIR Masters, Smartorque® Variable Frequency Drives, Static Stepless Modules/Panels

* Savings opportunity has been calculated based on historical data that includes the sale/shipment of parts during the last few years. Due to the complexities and costs associated with particular components, your actual savings may vary.

** Rebuilt components of better or equal quality may be shipped, shortening turnaround times.

THE REBUILD PROCESS

1. **Contact Crane Pro Parts** at 800-2-REBUILD and tell us about your rebuild project.
2. **Crane Pro Parts assigns your project** to the appropriate Rebuild Center location.
3. **Ship your part to the Rebuild Center location**, where it is stripped & analyzed.***
4. **Crane Pro Parts provides a complete analysis**, timeline & quote for your approval.
5. **Once P.O. is received**, parts are ordered and/ or manufactured and the rebuild is completed, QC'd and then shipped to you.

*** Some products may not require strip and analysis.
